Chief's Welcome & Notes

On behalf of our elected Board of Trustees and members of this Fire District, thank you for your interest in our department. Our hope is that this report will help you understand what we do and showcase the services we provide which also includes our involvement in the community.

2019 was a busy year for us. We celebrated our 50th anniversary in June which included an anniversary celebration with several hundred people coming through our doors to tour our station and see our apparatus and equipment. While researching data in preparation of our celebration we were able to identify at least 95 different fire or medical related agencies that our people have gone to after working with us. Having originally been a volunteer department and still being a department that uses "on call" personnel, we have had hundreds of people pass through our doors and receive training and valuable skills before moving onto other departments or opportunities in the fire or medical fields. Our long serving Fire Marshal Curt Shires retired which meant that we needed a new

Fire Marshal and hired Brad Butler in March to fill that role.

We made a couple of big improvements to our facility during the year. The first was taking advantage of a cost sharing energy savings grant through Commonwealth Edison to upgrade all of the lighting at our station to efficient LED lights, this will realize a return on our investment in less than three years. The second project had our firefighters using funds available to them to split the cost of upgrading our fitness facility with the District. During the process we were able to repurpose underutilized office space and make an area that promotes fitness while still maintaining space to conduct the business of the District.

In October we participated in a two-day Emergency Preparedness Conference hosted by the Village of Glendale Heights that included decision makers from the Schools, Village Departments, County and local public agencies as well as both Fire Districts that serve the Village of Glendale Heights. These types of conferences and the tabletop disaster scenarios we participate in increase our ability to better communicate with our neighboring departments and agencies while handling emergencies in our area.

We were fortunate to hire a new firefighter in May to replace a firefighter that took a job in Chicago. Unfortunately, we suffered a loss on our Board of Trustees, Sharon Christopher who served as a Trustee for over 28 years passed away in October. She was replaced by Commissioner and long-time resident Marty Olsen, which left a vacancy on our Board of Commissioners, which was filled by Ray Rodriguez who had previously held that position.

In 2020 we look forward to continuing our CPR training curriculum and expanding our program to include additional opportunities for those wishing to learn this life saving technique. Please contact me if you have questions or concerns regarding our department. Thank you for your support and interest, and may you and your family enjoy a safe and productive 2020.

Sincerely,

A handwritten signature in black ink that reads "Russ Wood".

Russell J. Wood, Fire Chief

Glenside Fire District 2019

Our Mission Statement

The Glenside Fire Protection District is dedicated to preserving the quality of life and property of our residents and businesses by providing diverse, high quality services that answer the needs of our community. We will participate actively in the community through education and prevention, serving as a role model that is identifiable, accountable, and one that lets the community know:

“We’re There and We Care”

Annual Report 2019

The members of the Glenside Fire Protection District take great pride in providing the residents and visitors of the District with quality cost effective care each and every day.

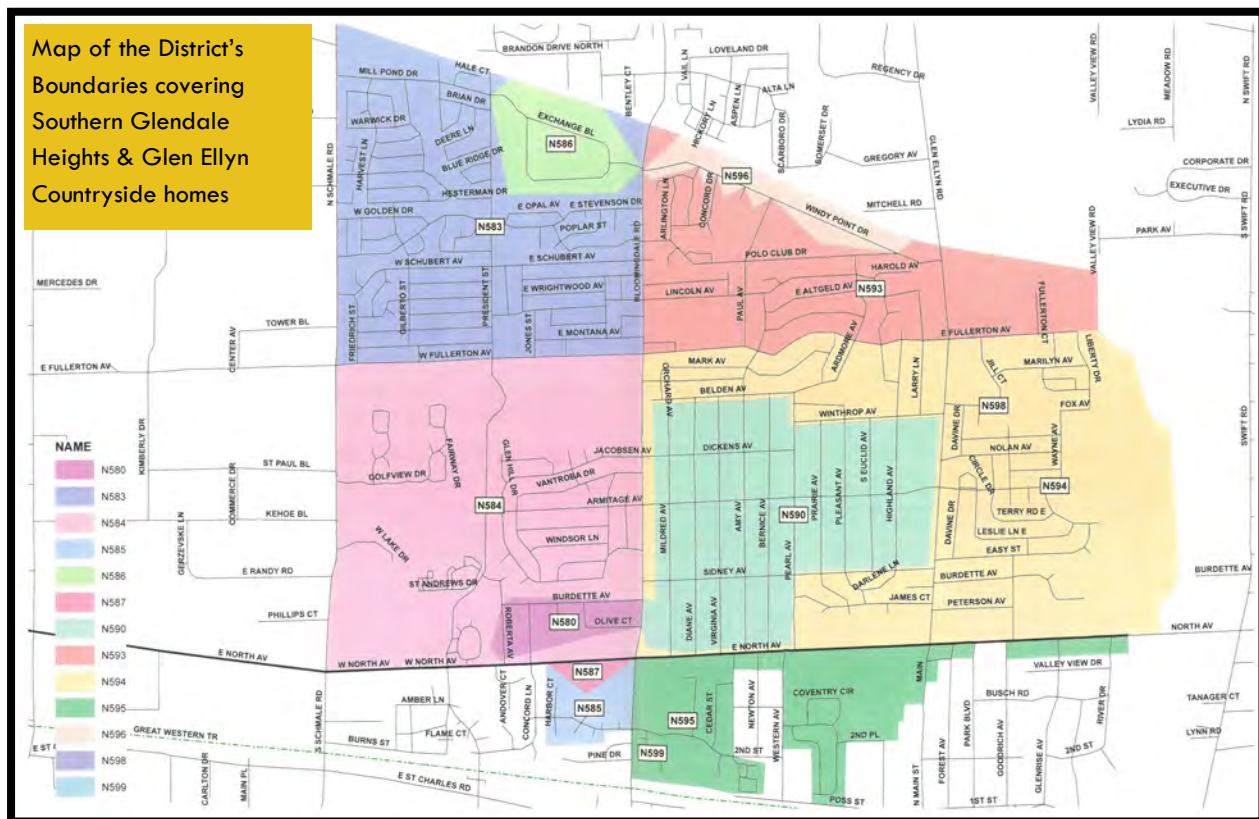

District members responded to 2,454 requests for service in 2019, an increase of less than 1% over 2018. Of the total responses 1,627 were Emergency Medical Services related and accounted for 66.3% of all calls this year (11% below 2018 numbers). Our Paramedics and Emergency Medical Technicians logged 1,544 ambulance runs on which 646 of those provided advanced life support services to patients.

Fire data includes 61 fire specific incidents and 86 hazardous condition incidents (with no fire). There were also 100 service related calls with the primary reason to assist with a lock-out (41 incidents) and 282 smoke detector activation calls (no fire) of the 438 total false alarm related calls.

Glenside Fire District History

The Glenside Fire Protection District was created in June of 1969 through a referendum approved by the voters of the Glen Ellyn Countryside unincorporated area and the voters of the Village of Glendale Heights. In October of 1970 a new fire station was dedicated and held 6 pieces of fire equipment and provided a training room and living areas for the firefighters. In 1984 there was an addition of two long apparatus bays on the west side of the original building and in 1994 a two phase renovation project was started. The first phase, the renovation of the apparatus bays and the underground fuel storage tanks was completed during 1994. However, the second phase, the demolition of the meeting room and living areas of the original building and the construction of new living areas and administrative offices had to wait for funding. In March of 2002 the residents of the Glenside Fire Protection District voted to approve a 3 million bond issue to renovate the 32 year old fire station. On July 31, 2004 the dedication of the renovated fire station was opened to the citizens for their inspection. The building which was funded by the citizens is expected to serve the community for the next century.

Glenside District Profile

The Glenside Fire Protection District, formed by its citizens in 1969 is organized under the general laws of the State of Illinois providing for the organization and operation of fire protection districts and is now under the provisions of the Fire Protection District Act of the State of Illinois, as amended (70 ILCS 705/0.01 et seq.). The District is located in west suburban DuPage County, approximately 25 miles West of the City of Chicago.

Each day, 24 hours a day, a minimum of five persons are on duty to respond to a variety of emergency incidents. Monday thru Friday from 8AM until 4:30PM an administrative staff of five additional personnel are on duty. Fire Chief Russell Wood and Deputy Chief Richard Cassady manage the daily operations. The three Trustees are elected by the citizens of the fire district to administer the funds and set policies for the District. The three Commissioners are appointed by the Board of Trustees and serve to support the hiring and promotional processes of full-time firefighters for the District.

Board of Trustees

Nicholas Kosiara, President

Richard Osborn, Secretary

J. Martin Olsen, Treasurer

Board of Commissioners

John Tautkus, Chairman

Javier Guzman, Secretary

Raymond Rodriguez

The District is a multi-million dollar operation protecting 34,000 citizens in the community 24 hours each day 365 days each year. The District is proud to have a new ISO Class 2 rating and was OSHA inspected during 2017 with no violations.

The District provides a full range of services to its residents including, but not limited to: fire suppression and emergency medical services, hazardous materials response, fire prevention and public education, juvenile fire setters and various community events.

50th Anniversary Celebration

The District celebrated its 50th anniversary in June, 2019. In preparation for this milestone event, the District's historical committee planned for several events including an open house and celebratory brunch that was combined with the service awards from 2018. The station received some "face-lifts" for the open house including painting, new lighting, completion of the new workout room, installation of historical display cases, creation of decade picture posters, an anniversary book and more! Old scrapbooks were on display as well as personnel rosters and pictures throughout the years.

Display cases (pictured above) were filled with Glenside historical artifacts and items of interest and marked with tent cards for observers to learn a little more about Glenside History. Picture posters (below) were created for each decade of the anniversary and hung in the hallways of the downstairs, leading to the training room. New personnel pictures were taken and updated on the existing "wall of fame."

50th Anniversary Celebration

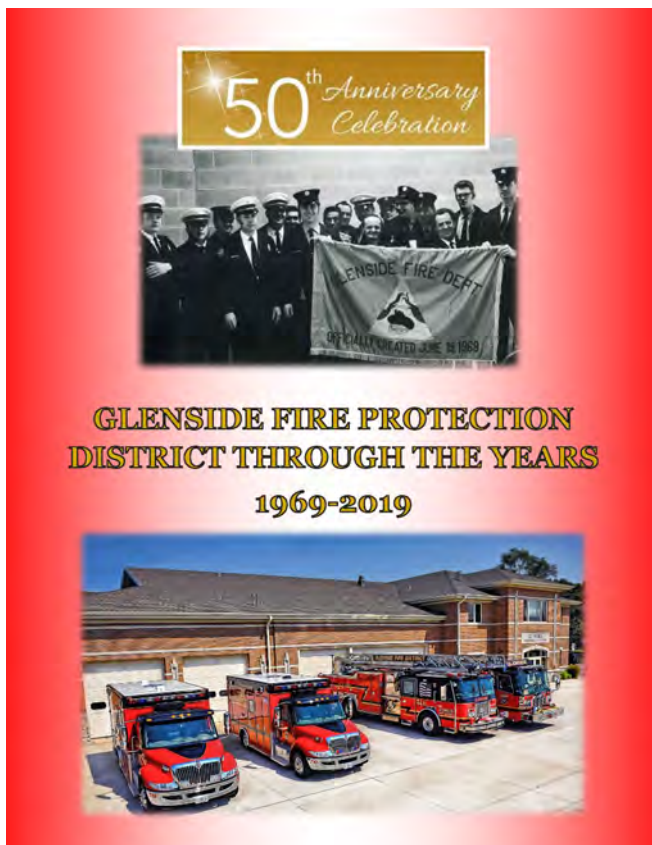

A new District patch was selected and introduced to kick-off the 2019 anniversary year. Insignias were changed on all uniforms and vehicles.

A 50th Anniversary book was compiled by the Glenside Historical committee, commemorating the last 50 years of the Glenside Fire Protection District's History. This 56 page book contained information about the District over the 50 years with highlights of the five fire chiefs who have served the District.

Historical timelines by the decade touched on key District milestones as well as a two-page spread of pictures. Vehicles throughout the years were identified and the various avenues of service to the community was featured along with group shots of employees. The book is available to be viewed at the station.

The book was also given to all current and former employees who joined us for the 50th celebration. A copy will be archived in the District's historical records to hopefully be referenced for the next milestone anniversary!

Book cover (above) and back page (right).

50th Anniversary Celebration / Open House

The entire station was open to the public for touring. The apparatus floor contained public education materials and information, food and anniversary cake, a photo prop opportunity and laid out on the North side of the floor was all of the equipment that is carried from one of the engines.

50th Anniversary Celebration / Open House

Glenside Fire District 50th Anniversary & Open House

Pictures including, visitors & employees who joined us to help celebrate!

50th Anniversary Celebration / Service Awards

50th Anniversary Celebration Continues

The day following the District's open house in celebration of its 50th anniversary, an employee brunch was held at the Glendale Lakes Golf Club. Current employees, retirees and previous Chiefs were all invited to join in the celebration.

Chief Russ Wood and Deputy Chief Rich Cassady emceed the event as the District recognized the service anniversaries for its current employees.

Glenside recognizes employees who are celebrating a milestone years of service, by acknowledging every five years. This milestone also coincides with the District's longevity recognition for part-time and full-time employees through the policies and procedures.

Retirements and special recognitions are also acknowledged at the event. This year, Fire Marshal Curt Shires "retired" from his full-time Fire Marshal position with the District. He has stayed on the remainder of the calendar year in a part-time capacity for cross training purposes.

Two of the three District Trustees that were present, were President Nick Kosiara and Rich Osborn. Both were presented with a plaque commemorating the District's 50 year history and anniversary.

Service Awards 2018 - Celebrated in 2019

GLENSIDE FIRE PROTECTION DISTRICT SERVICE AWARDS RECOGNITION JUNE, 2019

5 Years of Service -	Commissioner John Tautkus Firefighter/PM Ike Evans Firefighter/PM Joe Taylor

35 Years of Service -	Trustee Rich Osborn

Service Awards 2018- Celebrated in 2019

Service Award Recipient Pictures

Service Awards - Family Pictures

Service Awards / 50th Anniversary Celebration

Winner of the Golden Ticket—Jayden Novielli

Jayden was the lucky recipient of the 50th anniversary golden ticket at the service awards event. Jayden was recognized as Fire Chief for the Day and got to come to the fire station to spend time with his firefighters. He made sure the office was in order before heading out to direct the firefighters with their daily training. He inspected all apparatus and gear, grabbed a bite to eat with the crew before heading off to some meetings (like Chiefs do!).

Thank you Chief Jayden for your service!

Purchasing for the Future - Training Center

The District training center was purchased in August, 2017.

The property is being used to train firefighters in disciplines such as single family structural firefighting, emergency medical services, hazardous materials and specialty rescue responses. Cooperative training exercises are also being completed with neighboring departments and organizations, as well as MABAS Division 12 departments. Pictures (below) are of the modified interior rooms and some training exercises that took place.

Firefighters practice opening a locked door using a forcible entry prop. A valuable tool when teaching and practicing skills for opening doors. The prop was on loan from the Elmhurst Fire Department for several weeks. (Pictures below and right)

Purchasing for the Future - Training Center

House Training Evolutions took place on October 30th and 31st as a surprise snow covered the area.

Crews practiced hose line advancement, search and rescue as well as fireground communications.

Post drill critiques are a valuable learning tool. Working on unit problems revealed during training reduces the probability of errors on an emergency scene.

By utilizing the training house right next to the fire station, the shifts can more easily schedule these training exercises.

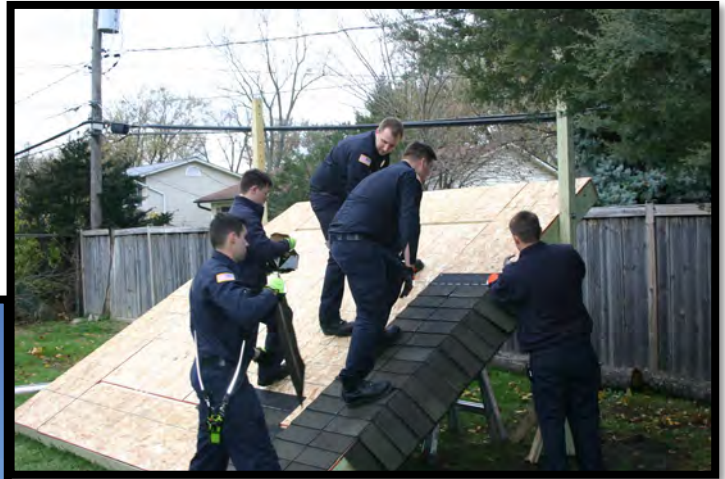

Purchasing for the Future - Training Center

Training Officers Chris Cavanaugh and Jeff Hammond have continuously enhanced the training center by creating mazes, additional openings such as access hatches from the main floor to the crawl space, etc.

Pictures on this page are of the roof training that took place in November after a roof prop had been assembled in-house by members of the training team and Gold Shift.

Rooftop vertical ventilation is one of the more dangerous operations that firefighters can undertake.

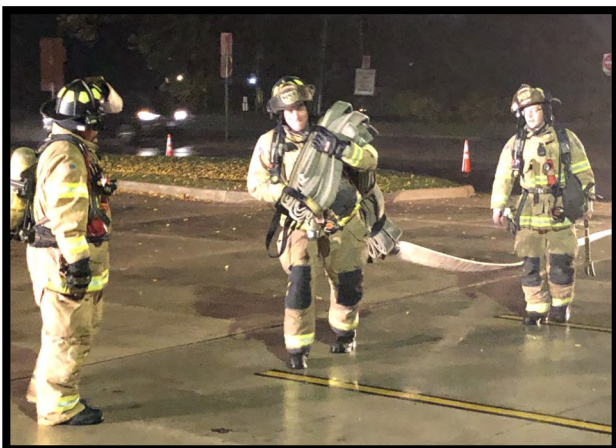

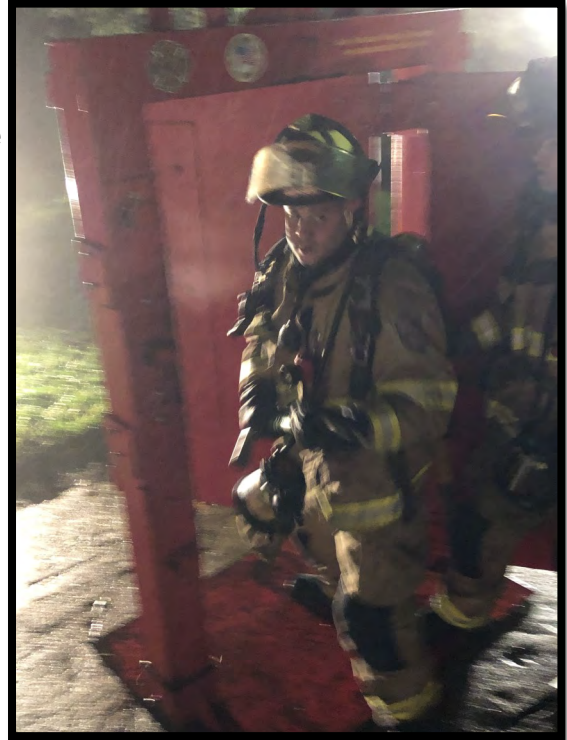

Practicing in a non-hazardous environment helps firefighters improve their speed, proficiency and readiness for performing on an emergency scene.

Training Center

Wednesday night training in March and then again in October focused on fire, search and rescue at the training house. Multiple scenarios provided the firefighters with the opportunity to practice forcible entry, hose advancement, and team work.

The training committee have built in several training props within the house itself. Here firefighters simulate entering a bedroom window to perform a search.

Station Projects / Foreign Fire Board

Foreign Fire Insurance Board

The Glenside Foreign Fire Insurance Tax Board was created within the department to receive and authorize the expense of funds for the maintenance, use and benefit of the District as well as its members, as designated by Illinois State Statute. The Illinois Municipal League collects 2% of fire related taxable premiums from out of state insurance companies with policies in state to provide to all fire departments.

The Glenside Foreign Fire Insurance Board completed another great year of focusing on the needs of the District and its members. The board continued to approve money to be spent on kitchen supplies that benefit all shifts and employees. Scholarships for education and training are also made available to all employees in the amount of \$3,000 annually.

They also approved the purchase and completed installation for reverse osmosis filters for both the upstairs and admin kitchen sinks. The filtered drinking water stations continue to be used and now show that the equivalent of 8,900 disposable plastic bottles were eliminated from our waste system. The number had been 2500 at the end of 2018.

The board had earmarked money designated to be used on the new workout/exercise room going into the lower level of the District, along with the

relocation of the Quartermaster's supplies to the apparatus bay area. Their persistence paid off and the project was completed in June of this year! The firefighters now have a state of the art new workout area that is almost ten times the space they had prior! New equipment was purchased including a Peloton and annual membership to access instructor led workout routines specific to each individual's request.

In 2019, the board also approved expenditures for a personal "go" bag, workout shoes, and personalized radio straps as an option for employees for the annual recognition gift. Expenses for annual recognition gifts were shared with the District.

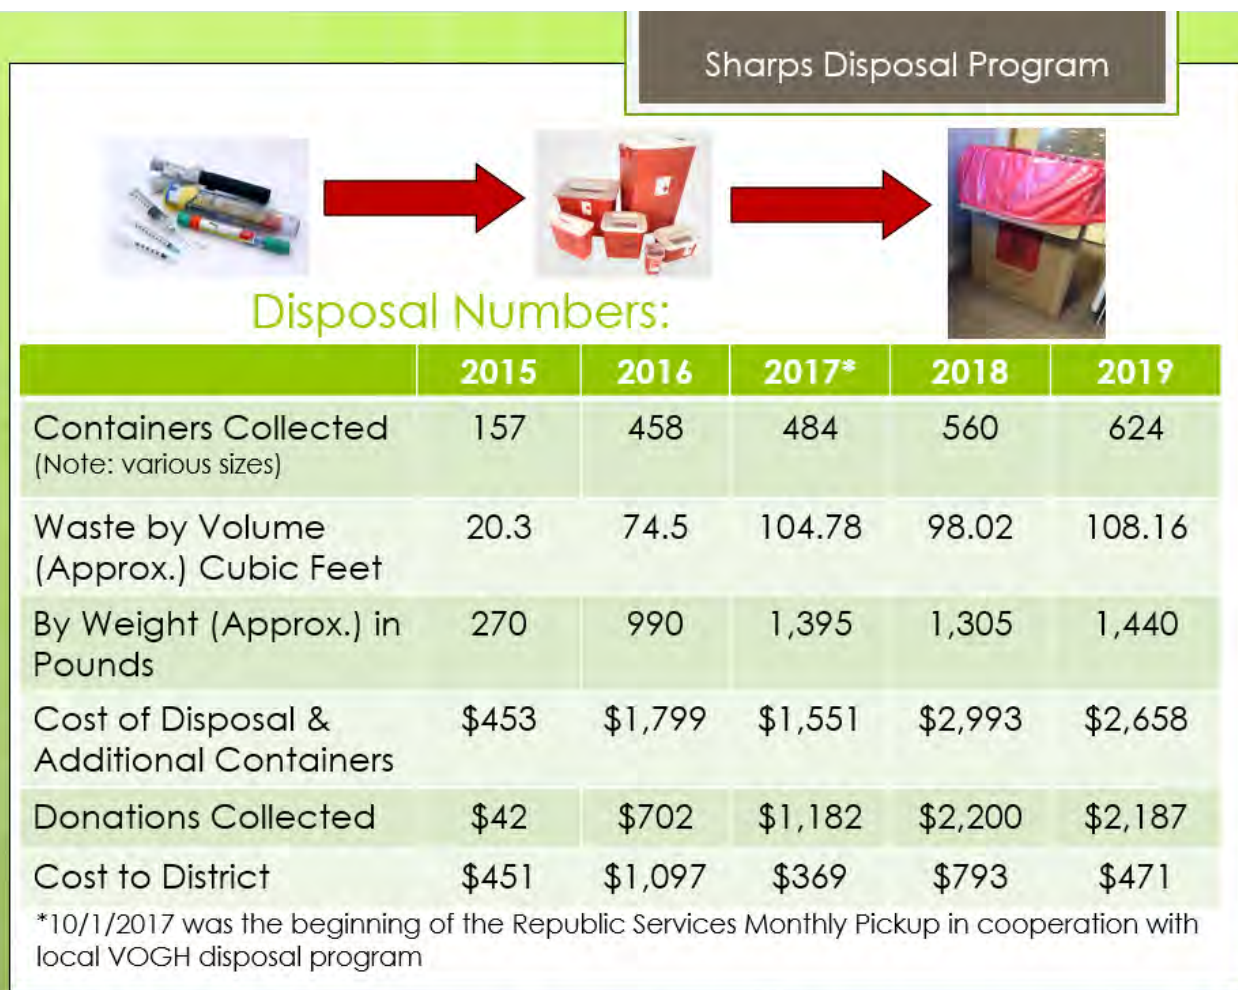

District Grants

Sharps Disposal Program

The District is proud to continue to be the leaders in DuPage County fire districts with the Sharps Disposal Program implemented in 2015. We continue to use a portion of the IPRF Safety Grant money to support the cost of the Sharps Program and assist not only the citizens of the District but we also never turn away anyone disposing of sharps. In 2017, the Village of Glendale Heights waste disposal company, Republic Services, contracted to partner with us and now provide a supplemental payment to the program annually. Donations are also accepted from all non-residents who are able.

The program has grown since its inception (see the disposal chart below) and is not only appreciated by those utilizing the program but encourages everyone to reduce their carbon footprint within our environment. Programs in Cook County are growing and it is our hope that other fire departments in DuPage will soon follow.

Incidents and Fire Loss

Weather is often times a challenge in the fire service with severe cold temperatures in the winter months and icy conditions as seen on this firefighter's helmet.

A record breaking code spell was experienced the last few days of January, calling it the polar vortex.

Often times large amounts of snow as was seen at the end of January. Maintenance and clearing of snow in front and back of the fire station is critical as vehicles are called to duty on heavy snow days.

Noteworthy Facts:

There were 86 hazardous condition incidents in 2019 or 3.51% of all calls, and two distinct severe weather calls related to floods.

Incidents and Fire Loss

Noteworthy Facts:

86 hazardous condition calls (with no fire) were primarily related to gas leaks (36), carbon monoxide (23) and power lines being down (17).

A mutual aid gas leak at Army Trail and Gladstone in March tied up the shift for most of the afternoon.

A car drove into the storefront of one of the businesses in the Full Bloom Shopping Center on Bloomingdale Road in March. The same week another vehicle went into the wall of the Taco Bell on North Ave.

Noteworthy Facts:

There were only 6 cooking fires accounting for 10% of all fire incident calls. Cooking area fires caused approximately \$710 in damages down again, this year by 80% compared to 2018.

Gold Shift took the most calls in 2019 with 34.63% of all calls; the District was busiest equally on Saturday and Sundays.

Incidents and Fire Loss

October 31st, one of four car fires for the year, this one occurring in a resident's driveway on Windsor Ave. (pictured left)

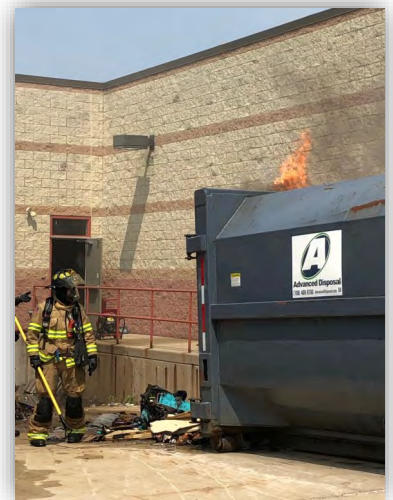

September 27th, a garage fire occurred (pictured below) in the unincorporated area of the District on Bernice.

Noteworthy Facts:

116 vehicle incidents occurred ranging from accident with injuries to rescue and extrication
4 of those incidents were vehicle fires accounting for 3.5% of all vehicle related calls for the District

AMITA Glen Oaks Dumpster Fire (pictured below left) and one on North Avenue (right).
Six dumpster or outside receptacle fires were logged in 2019. Another ten outside trash or waste fires occurred as well.

Incidents and Fire Loss

An auto aid call was received on May 31st for Wheaton Fire box alarm for a home fire. Firefighters wait for direction from the on-site officer.

(Pictured left)

Glenside was first on the scene and were first to get water on the fire. Carol Stream Tower assisted from a higher level. Lt. Siewierski and his shift worked the scene that day.

Glenside Fire responds auto aid to Bloomingdale FPD for a house fire on Rosedale Ave. Crews above work together to fight the fire and ensure that it is out (pictured above). Glenside personnel check for hot spots near the home's roof (pictured right).

Note: Pictures shown are according to the roster as of December 31, 2019. All full-time contract paramedics also serve as part-time firefighters for the District, but were not pictured on this page.

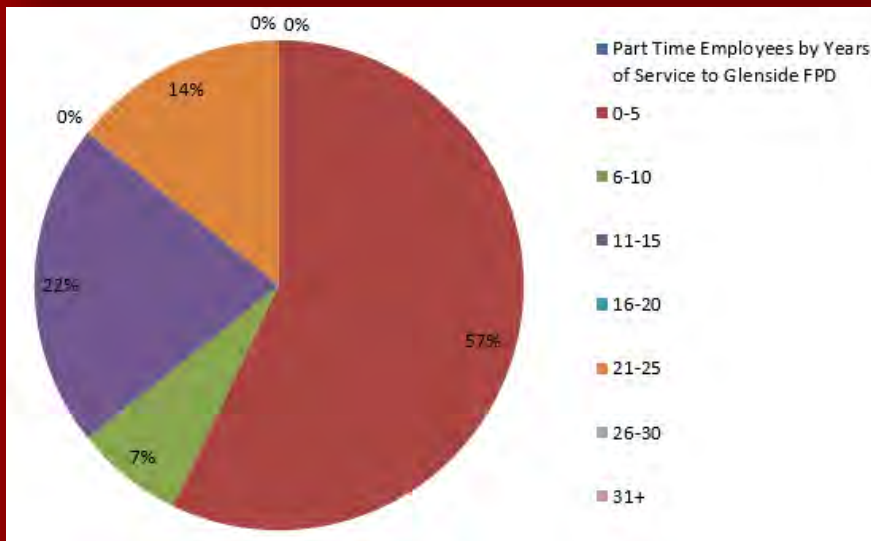

DISTRICT DEMOGRAPHICS

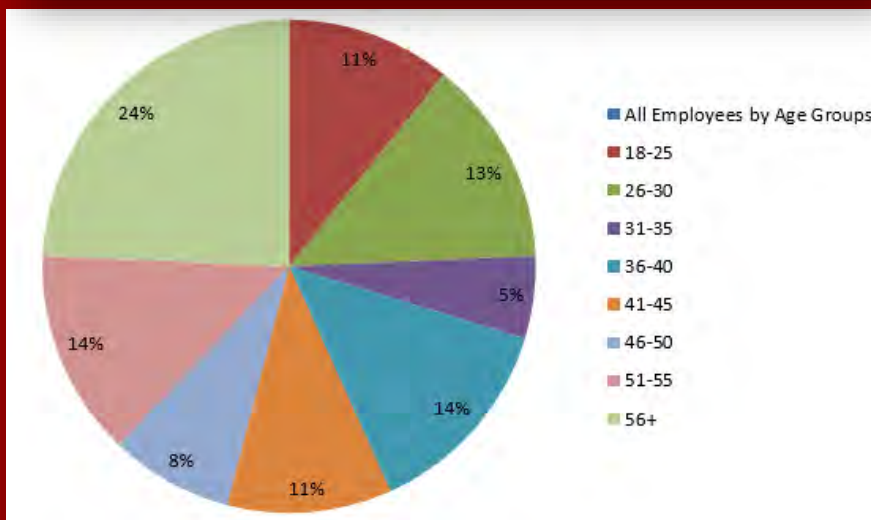

Graph charts show the demographics of the District members by years of service, both full-time and part-time (left and center).

Note: PSI contract employees were included in the part-time numbers. Trustees and Commissioners are not included in these statistics.

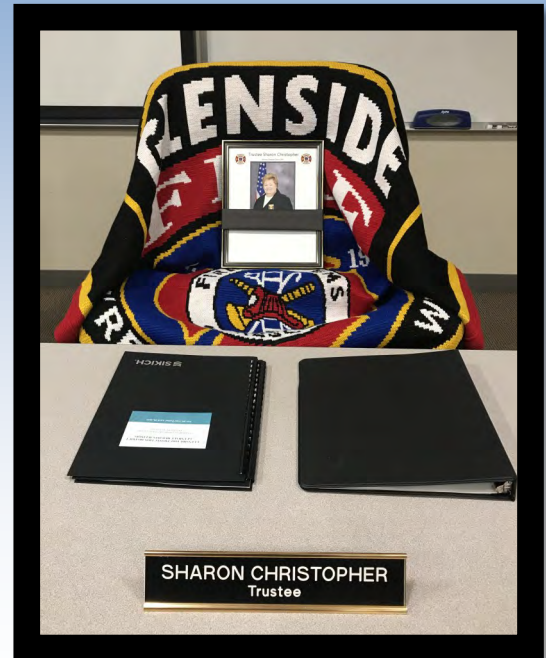

An age graph chart (bottom) of all employees of the District as of December 31, 2019 identifies the largest percentages of employees, or almost one third of all employees are 30 years of age or younger.

Note: Almost half (43%) of the District's part-time employees also fall in this same percentage.

Board Meetings & Special Recognition

Remembering Trustee Sharon Christopher (Service 1998-2019)

Sharon was elected as a Trustee to the district in 1991. She was successfully re-elected each time and was still a Trustee at the time of her death. Sharon was very involved with the District and community over the years that I knew her – serving as Fire District Trustee, Fire Pension Board Trustee, Police Pension Board Trustee, Fire District Health Insurance Cooperative Board member, Community Events Committee, and various other committees as well. (cont. next page)

Remembering Trustee Sharon Christopher (Service 1998-2019)

Trustee Sharon Christopher through the years

Trustee Christopher was not afraid to speak her mind and stand up for what she thought was right. I will remember her for being a fighter, a proud supporter of the District and the community, and she was proud to wear our patch and to tell people she was with the fire department.

Trustee Christopher will be greatly missed, we lost a true friend when we lost her.

Fire Chief Russ Wood

Personnel With The District

Swearing-in of Firefighter David Wick

The District welcomed new full-time firefighter/paramedic David Wick to the Glenside Family on May 14th at the Board of Trustees Meeting. President Kosiara led Mr. Wick with the Oath of Office. David's family member joined him for this exciting start to his career.

Swearing-in of Trustee J. Martin Olsen and Commissioner Ray Rodriguez

On November 12, 2019 Commissioner J. Martin Olsen was sworn in to the open Trustee position replacing Trustee Sharon Christopher (pictured left).

Ray Rodriguez was welcomed back into the Commissioner position thereafter. (pictured right).

Board Meetings & Special Recognition

Wood Dale Recognition

Glenside was invited by the Wood Dale FPD to participate in several training exercises. The drill ran from June 25 through July 11 2019. The drills consisted of RIT training and live fire training . Acknowledgement was given to DC Cassady, Lt. Cavanaugh, FF Joe Taylor, AO Jeff Hammond, FF Rick Malinoski for their assistance during these drills.

EMS Assisted Citizen Recognition

On Tuesday, February 19th Chief Russ Wood and Lieutenant Chris Cavanaugh along with the VOGH Police Dept and DuPage Senior Citizens Council recognized John Lachman for his quick thinking and heroism. Mr. Lachman delivers food for Meals on Wheels and upon hearing the internal cry for help at one of his stops, quickly dialed 9-1-1 and waited for emergency personnel to arrive.

Special Recognition and Awards

Illinois Fire Chiefs Association Scholarship Awardees

Recipients of scholarship money towards continued education for 2019 were Firefighter Rick Malinoski, Acting Officer Mike Pacie, and Firefighter Joe Taylor. All three firefighters are working on their higher education to earn degrees.

IFSAP President

Administrative Assistant Laura Haiden was sworn in as President of the Illinois Fire Service Administrative Professionals organization, an of the Illinois Fire Chiefs Association. She has served on the board for eight additional years as Director and Secretary and will complete her one year term as President in 2020. The IFSAP website can be found at: www.ifsap.org

EMS Training — Continued education in the EMS field is required annually for all paramedics. Part-time firefighters continue their EMS training as well and were instructed by Paramedic/FF Dave Zielinski on this October, Wednesday night training session.

District Training in 2019

Training Classes & Exercises

Wednesday Drill Nights

Career and part-time members train together every Wednesday night. Training covers a number of disciplines such as structural firefighting, EMS, Hazardous Materials responses or technical rescue.

Pictured left—Wednesday night drill, ladder training and exercises.

Hazardous Materials Training in 2019

September, 2019—Firefighters participated in live hazardous material drills with MABAS Division 12 located in Addison. MABAS Division 12 drills are coordinated internally by the training officer, currently Lt. Cavanaugh. All firefighters are encouraged to attend the sessions.

November, 2019 Decontamination training took place on all shifts and on Wednesday night drill. Weekly training is made available to all employees.

District Training in 2019

Training Classes & Exercises

Live fire training took place in Wood Dale on homes that were being demolished in July, 2019. This provided opportunity for District personnel to train on hose line advancement, victim search and removal, roof ventilation and self-rescue techniques.

A short picture video was added to the website for the public to view.

District Training in 2019

Training Classes & Exercises

District Training in 2019

Training Classes & Exercises

Live fire training took place at the Addison Burn Tower in October, 2019. This provided opportunity for District personnel to train on hose line advancement, victim search and removal, roof ventilation and self-rescue techniques .

District Training in 2019

Training Classes & Exercises

The power stair chair continues to be an instrumental tool for the paramedics when moving a patient. The chair enables paramedics to move patients from upper levels in their homes to a waiting cot and helps to alleviate lifting injuries to the firefighters. New firefighter David Wick receives training on the chair as pictured below. Acting Officer Hammond oversees the training as Paramedic/FF Guevara plays the role of the patient. (Pictured below, left)

An annual consumption drill (pictures below) was conducted in October for all firefighters to determine the amount of time it takes the individual to consume an SCBA (Self-contained breathing apparatus) air bottle while performing firefighting related tasks.

Glenside Community Commitment

Duck Rescue — Spring, 2019

Black shift under the direction of Lt. Lipowski came to the rescue of a mother duck and her 11 little ones near the corner of North Avenue and Glen Ellyn Road. Concerned citizens made the call, stating that the little ones had just disappeared as momma duck crossed the manhole cover. Firefighter Wallin provided the assist as momma duck watched on nervously.

Video of the save was recorded by the citizen who made the call and was shared with local news coverage through Fox 32 Chicago. The video and information was shared both in the evening news and the next morning.

Momma and the babies were enticed to the retention pond behind Menards where they were last seen floating away.

Caring in Our Community

Park Parties

Assisting the Village of Glendale Heights with their annual Park Parties, the Glenside Fire District will attend as many park parties in the District as possible. Public relations and education is the focus of the attendance at these events, as well as having a little bit of fun as you can see in some of the pictures shown!

Glenside Community Commitment...

Stocking Lake Becerra

It is the tradition of the Glenside Professional Fire Fighters Association-Local 3277 to stock the lake with fish for the annual Fishing Derby held by the Village of Glendale Heights. The fire fighters use funds from their union monies to contract with an organization from Missouri to bring a variety of fish up for the event.

Unfortunately due to continued bad weather, the Fishing Derby was canceled this year not once but twice. Hopefully by next year the fish will be even bigger when they are caught!

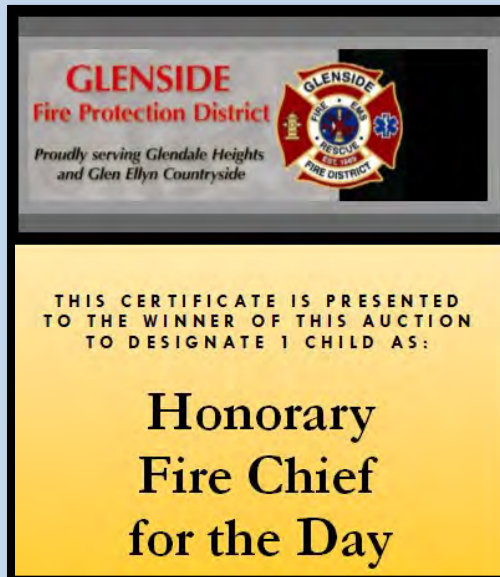

Thank you to their organization and members for their continued efforts to make kids happy through these coordinated family friendly events within our town.

Glenside Community Commitment...

Mayor of the Day Welcomed!

The District assisted the Village of Glendale Heights with Mayor for the Day and welcomed the group with a tour of facilities, providing information on what firefighters do at the fire station on a daily basis. The group sent thank you cards after their visit and their parents expressed their overall appreciation for the time allotted to them.

Pictured right & below.

Fire Chief for a Day

St. Matthew's in Glendale Heights is raising money for a new playground set and asked the Fire District to contribute to their silent auction. The District provided time and talent through their Fire Chief For a Day Certificate.

Station tours are available by appointment for groups.

Community Involvement!

Christmas Sharing — Administrative Staff and the Glenside Professional Firefighters Association donated funds toward the Village of Glendale Heights's Annual Christmas Sharing Program. Administrative Staff went shopping this year for 7 families, totaling 19 children and have made this an annual tradition of giving back to the community. Some of the gifts are pictured below.

Healing Reunion — Administrative Staff provided a setting for the teenagers and families involved in the damaging bonfire in 2018. Several of the families effected by the incident, as well as the first responders that treated the injured, found the get together to be beneficial. It was also very therapeutic to meet the kids and have them share with us what that night meant to them and how much they appreciated our efforts.

Public Education Events

Health & Safety Fair 2019

The District and its representatives continue to be active members of the annual Health & Safety Fair Team. In its 23rd year the Health & Safety Fair provides resources, information, training and knowledge to its community members across a variety of areas every year on the first Wednesday in October.

The teddy bear clinic is run by the AMITA Health hospital staff and firefighters/paramedics from both Glenside Fire and Bloomingdale Fire Districts.

Chief Russ Wood and new public education coordinator Acting Officer Brian Hauser (pictured below, center back row) with the rest of the Health & Safety committee members.

Public Education Events

Annual Public Education Events

The District and its members were once again present at various public education events held within our community as well as at our own station.

- ◇ Glendale Heights 5-Day Fest with fireworks, first aid tent and public education information provided
- ◇ Health And Safety Fair held at the Glendale Heights Sports Center
- ◇ Fishing Derby, Chili Cook-Off and Harvest Fest (unfortunately all canceled due to weather in 2019)
- ◇ Various Parties in the Park sponsored by the Village
- ◇ National Night Out

See detailed report with public attendance summaries for a complete listing of events.

Annual In School Education Program

The District has continued to work with the administration for schools that reside within our District. The 2nd Grade Fire Safety Program has continued in the District 16 schools for the past 10 years. This past year, the students were evaluated at the beginning and end of the 7 month program.

- ◇ 55% of students went from fail to pass on the fire safety quiz, bringing all students to an acceptable fire safety knowledge level
- ◇ 85% of students increased their overall quiz score over the course of the program

Public Education Events & Community Involvement

Public Events - Top left then clockwise:

FF Evans at Touch a Truck; Unknown FF speaking to the kids; A/O Paice, A/O Hammond (CPR Instructors) and PT FF Francik in a group picture; Fire Marshal Shires at Glen Ellyn Animal Hospital with animal oxygen masks; Deputy Chief Cassidy at the Anti Bullying rally at District 15 schools; Lt. Siewierski speaking to the kids at Safety Town during summer camp; a new photo prop for the District reminding citizens about testing their smoke alarms; District members at Glendale Heights Fest in the First Aid tent awaiting the kick-off of fireworks; Black Shift members with Santa and Mrs. Claus for the annual Breakfast with Santa (center).

Fire Prevention Bureau

In 2019, the Glenside Fire Prevention Bureau as well as the Village of Glendale Heights, has experienced both growth and change. We sadly said goodbye to Inspectors Larry Cox and Katie Little, welcomed new Fire Marshal Brad Butler and Inspector Jeremy Montgomery and continue to be blessed with the experience, wisdom and mentoring of Fire Marshal Curt Shires.

Of the many changes that have occurred in our Fire Prevention Bureau, perhaps the most important and game changing, was the beginning of our transition from a paper form fire inspection program to an I-Pad based format. With the help and expertise from Lt. Lipowski and Inspector Montgomery, the foundation for our future fire inspection program has been completed, with implementation to begin in early February 2020. This upgrade will change the way we do business by improving our ability to eliminate unnecessary redundancy, expand our level of communication, streamline the fire inspection process and decrease the amount of time between fire inspections. Our ultimate goal is to offer an annual fire inspection and re-inspection for the over 500 occupancies that currently reside within our fire protection district.

We continued our commitment to educating and assisting our older adult community with a series of fire safety presentations and outreach programs specifically designed to address the needs of our most vulnerable residents. Our programs of providing and installing free smoke and carbon monoxide detectors, responding to calls for assistance on a variety of other fire and life safety issues, and our residential key box program, has fostered a close relationship between our fire department and our most precious seniors. Our goal is to continue delivering the message that we care and we are always there to help make their lives safer.

Family Dollar Grand Re-Opening on North Avenue

Fire Prevention Bureau

Fire Marshal Butler present for the opening of the new Freddy's Frozen Custard & Steakburgers Restaurant on North Ave

As a result of the village's hard work and commitment to making Glendale Heights a great place to do business, we have seen an uptick in growth and re-development, which we anticipate to continue for the foreseeable future. The demand for plans review has increased significantly, with 121 plan reviews, 103 acceptance tests performed and 30 final occupancies completed. Our goal for the future is to continue our great relationship with the Community Development Department, review plans and submit comments in five days or less and help new and existing businesses reach their business objectives and goals in a timely manner.

Chief Wood present at the Remodel and reopening of the Sub-Zero, Wolf and Cove Showroom on Exchange Blvd.

Looking ahead to 2020. We will explore and implement new ways of storing our archived plans, extend the new I-Pad firehouse inspection program to include inspection checklists for all of the inspections that we conduct, add permit and other related forms to our website, update our fee schedule, ordinances and require annual fire alarm/sprinkler inspections for all occupancies within our district.

Fire Prevention Bureau

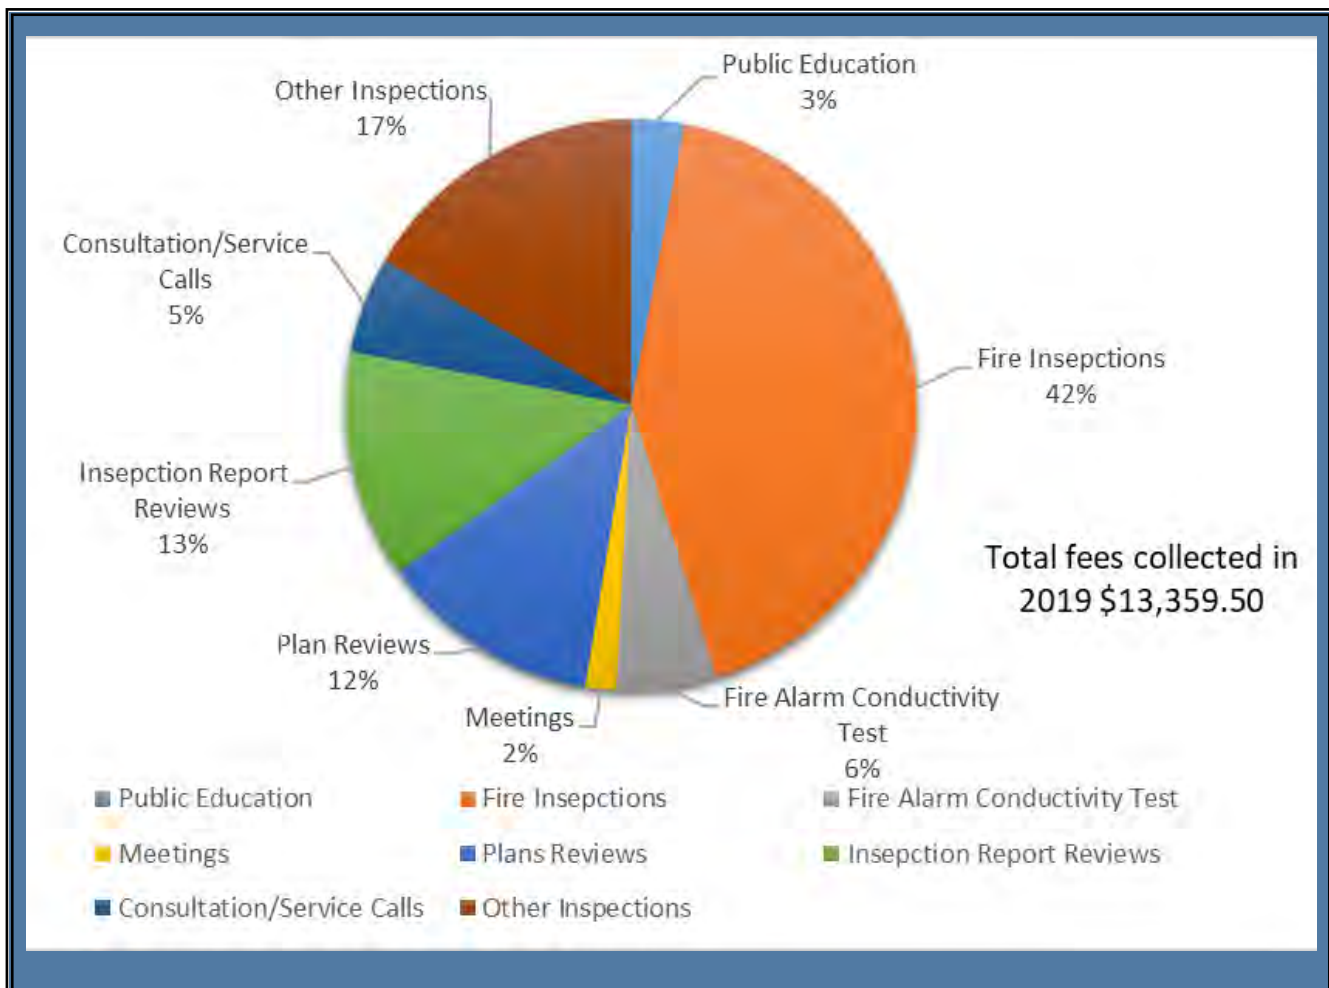

We wish to take this opportunity to thank all of our partners in the village's Administration, Community Development, Parks, Recreation and Facilities, Public Works, Police Department, B & F, EIS, DuComm and the Senior Center. We understand that without their help, support and expertise we would not have been able to enjoy our many successes and accomplishments throughout the year.

Finally, a special thanks to our fire protection district's board of trustees and commissioners for their commitment, wisdom and foresight. Their guidance and support allow us to provide the highest level of service to those that we proudly serve and protect.

Brad Butler, Fire Marshal

Curt Shires, PT Fire Marshal

Jeremy Montgomery, PT Fire Inspector

The following pages provide reporting data generated from Firehouse Software, a National Fire Incident Reporting System (NFIRS). This is the compliant reporting and records management software system the District utilizes to track fire and emergency medical services (EMS) calls. This system also tracks the scheduling of firefighters, training, equipment, public education events and many other fire department related information that requires tracking. The District also tracks specific training, certifications, legal requirements and other data in Target Solutions.

EMS call records are supported by additional information through the Image Trend System and the billing process with an outside contracted billing company.

A Fireman's Prayer

When I am called to duty God
Wherever flames may rage
Give me strength to save some life
Whatever be its age.

Help me embrace a little child
Before it is too late.
Or save an older person from the
horror of that fate.

Enable me to be alert and hear
the weakest shout
And quickly and efficiently to put
the fire out.

I want to fill my calling and to give
the best in me

To guard my every neighbor and
protect his property

And if according to my fate I am
to lose my life,

Please bless with your protecting
hand my children and my wife.
